

MMBB SEMINAR SERIES - FALL 2008

THURSDAY 12:30 – 1:30 PM

LIFE SCIENCE 277

- August 28 Ingrid Fruth, Ph.D. Candidate, Microbiology, Molecular Biology & Biochemistry, University of Idaho
 “Regulation of motility in *Toxoplasma gondii*”
- September 4 Jill Johnson, Ph.D., Microbiology, Molecular Biology & Biochemistry, University of Idaho
 “Folding and activation of client proteins by the Hsp90 molecular chaperone machine”
- September 11 John F. Alderete, Ph.D., School of Molecular Biosciences, Washington State University
 “*Trichomonas vaginalis* adherence, diagnostics and host responses”
- September 18 Justin Spinner, Ph.D. Candidate, Microbiology, Molecular Biology & Biochemistry, University of Idaho
 “*Yersinia pestis* type III secretion system-dependent inhibition of human polymorphonuclear leukocyte function”
- September 25 Jason Gestwicki, Ph.D., Life Sciences Institute, University of Michigan
 “Allosteric control over heat shock protein 70 and its roles in neurodegenerative disease”
- October 2 *To be Announced*
- October 9 Artur Klamczynski, Ph.D., USDA, Pacific West Agricultural Research Service
 “Biodegradable packaging materials and new materials for controlled release of volatiles made from starch”
- October 16 Wyndham Lathem, Ph.D., Department of Microbiology & Immunology, Northwestern University Feinberg School of Medicine
 “Pneumonic plague, from the outside in”
- October 23 Robert Bloodgood, Ph.D., Department of Cell Biology, University of Virginia School of Medicine
 “Flagellar glycoprotein dynamics and whole cell locomotion in *Chlamydomonas*”
- October 30 LeTourneau, Nigel Halford, Ph.D., Plant Science Department, Rothamsted Research, Harpenden, UK
 “Acrylamide in everyday foods is a plant and agronomic science issue”
- November 6 *Coming Attraction*
- November 13 Diane Prorak, Reference and Instruction Librarian, University of Idaho Library
 “UI Library Resources and Services for MMBB Students”
- November 20 *To be Scheduled, then Announced followed by Cancellation, then Rescheduled & Reannounced*
- November 27 *FALL BREAK – No Seminar*
- December 4 James Nagler, Ph.D., Department of Biological Sciences, University of Idaho
- December 11 Wioletta Pyrzak, Ph.D. Candidate, Microbiology, Molecular Biology & Biochemistry, University of Idaho
